

STATEMENT TO THE SOUTH PACIFIC STOCK EXCHANGE
30th June, 2015

Communications Fiji Ltd "LOOKS NORTH"

The South Pacific's largest commercial radio broadcaster Communications Fiji Ltd announced today the completion of the first stage of their transmission upgrade program for 2015.

"Our initial focus this year was on the Northern Division", said General Manager Ian Jackson." We have developed a new transmission site at Urata near Savusavu and conducted major upgrade works at our Tabia site near Labasa".

The Urata site has significantly boosted coverage across Buca and Natewa Bay, Taveuni, Koro and the Lomaiviti group. "An unexpected bonus is that this site provides a strong signal into Levuka town which has always been a challenge", said Ian Jackson. In addition, this site strengthens coverage along the Cakudrove west coast including Wainunu, Wailevu through Bua to Nabouwalu.

Feedback from listeners has been very positive with some villages in the Natewa Bay area reporting that they can listen to radio for the very first time!

Further North at the Tabia site engineers significantly increased the height of the tower and increased transmission power. The result is a significantly boosted signal from Lekutu in Bua through to Udu Point. "In addition, travellers on the Hibiscus Highway between Labasa and Savusavu now enjoy uninterrupted coverage".

Communications Fiji Ltd invested \$250,000 in the upgrade work.

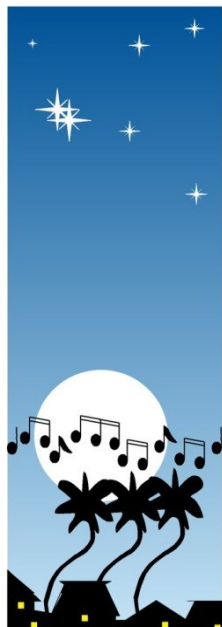

For more information, please contact the undersigned or General Manager, Ian Jackson.
