Statement to the South Pacific Stock Exchange

19th November, 2015

COMMUNICATIONS FIJI LIMITED BOOSTS RADIO

COVERAGE AGAIN!

Communications Fiji Ltd, the South Pacific's largest commercial radio broadcaster announced today, completion of upgrade work on its core transmission site at Nakobalevu, just outside of Suva.

"Nakobalevu is our most important site as it covers much of Central and Eastern Divisions", said Ian Jackson, General Manager Fiji.

"The upgrade work comprised the doubling of transmission power from the site, significantly boosting signal coverage of the key Suva - Nausori corridor and also improving coverage into Naitasiri, Rewa, Namosi, central Viti Levu, plus along the Queens Highway towards Sigatoka and Kings Highway through Korovou towards Rakiraki ."

"Earlier in the year we announced the establishment of our Urata site near Savusavu which increased coverage of Vanua Levu, Taveuni and Lomaiviti, plus, the upgrade of our Tabia site near Labasa which significantly boosted signal from Lekutu in Bua through to Udu Point and providing travellers on the Hibiscus Highway between Labasa and Savusavu uninterrupted coverage. The upgrade of our Nakobalevu site further improves coverage of Kadavu and the Lau Group with listeners calling in regularly from those areas."

Total investment in transmission upgrade work in 2015 is just over \$500,000.

“It is important to note that this has been entirely financed out of company funds”, said Managing Director, William Parkinson. “I am very proud of the work done by our local engineering team. Once again they have shown what can be achieved with hard work and good planning”.

For more information, please contact Ian Jackson on (679) 331 4766.
