Other Business.

Any Other business brought up in conformity with the Articles of Association of the company.

By order of the Board of Directors

Shabnam Prasad Company Secretary

Dated 21st March, 2018 Malaqereqere, Sigatoka, Fiji

Chairman's Report

Dear Shareholders,

On behalf of the board of directors (the "Board") of Pacific Green, I am pleased to present to the shareholders the annual report of the Company for the year ended 31st December 2017.

After experiencing a temporary setback in 2017 due to delayed building projects in Fiji, we are delighted to report encouraging gross margin and profit performance. Our turnover was \$3.7million in 2017, a slight decrease in comparison to 2016. Our gross profit margin was 37.4%, a 4.9% increase over the previous year, with a gross profit of \$1.39million, up from \$1.27million in 2016. Finally, operating profit for the year was \$0.39million, compared to a profit of \$0.32million in 2016.

The landscape surrounding furniture manufacturing is becoming increasingly difficult with shortage of skilled labour and resources. The challenges we are now facing includes the rising costs for labour and materials, and shortage of skilled labour. Since late 2017, we've taken a significant step by establishing a transformation plan with an increased focus on operational efficiencies to achieve economies of scale to reduce costs and drive our core competitiveness further. We are delighted that we have made significant progress on few fronts including further standardisation and automation of our production process. Our industry remains extremely competitive with a large number of imported furniture entering the market at lower cost. With our partially vertically integrated business model and sound financial position, we believe we have the competitive advantage to outperform our competitors and further enhance profitability. Given the positive macro environment as we head into 2018, we will focus on achieving higher growth in sales and long-term profitability for our shareholders. The advancements made relative to our principal strategies incorporate a focus on strengthening our market presence, and brand awareness with planned successful marketing initiatives. This policy will see a continuation of our niche products being developed providing a valuable contribution to the company's future growth.

In order for us to stay competitive in the market, we will further increase our operational efficiencies through process improvements, skill based training, and through a series of cost reduction initiatives. Moreover, we will continue to invest a significant amount of time and capital in the standardisation and automation of our manufacturing process.

Our balance sheet remains sound, and we continue to generate steady cash flow. The management is committed to creating value by acting in the best interests of all shareholders. We will continue to thrive in today's business environment by staying focused on the planting of sandalwood, expanding product designs, entering new markets with more efficiency and diversified channels, improving operational efficiency and cost structure to generate robust growth and sustainable profitability.

During the year we lost Mr Peter Ryan, the company's founder and past chairman. Mr Ryan was instrumental in the initial set up of the company and in the success of the company's products and business over the years. We continue to miss him for his leadership and thank him for his years of contribution and dedication to the company, our employees and the landowners.

I would like to take this opportunity to express my appreciation to our directors, landowners, management team and the employees for their continued passion and effort towards the company's achievements, Moreover, I would like to extend my sincere gratitude to the Fijian Government, shareholders, customers, suppliers and business partners for their continuous support

Vinakavakalevu

Samuel Ram Chairman

Directors' Report

The directors present their report together with the financial statements of the Company for the year ended 31 December 2017 and the auditors' report thereon.

Directors

The directors in office of the Company at the date of this report are:

Mr Samuel Ram – Chairman Mr Ravin Chandra Mr Ashnil Prasad Mr Abilash Ram (Appointed on 21st March 2017) Mr Dominic Ryan (Appointed on 16th June 2017) Mr Adish Naidu (Appointed on 6th July 2017)

Principal Activity

The principal activity of the Company during the year was the manufacture and sale of furniture and architectural products made from coconut palmwood.

Results

The net profit after income tax of the Company for the year ended 31 December 2017 was \$387,928 (2016: \$321,766).

Dividends

There was only one dividend payment made during the year 2017. Dividends of \$0.02 per share was approved by the directors and paid on 11th April 2017 (total of \$0.02 per share or \$152,385). This dividend was paid from the sale of the shareholding in Dongguan Golden Palmwood Furniture Pty Limited and current year profits.

Reserves

The directors recommend that no amounts be transferred to reserves in respect of the year ended 31 December 2017.

Subsequent events

There has not arisen in the interval between the end of financial year and the date of this report, any transaction or event of a material and unusual nature likely, in the opinion of the Directors, to affect significantly the operations of the Company, the results of those operations or the state of affairs of the Company in subsequent financial years, apart from those disclosed in the notes to the financial statements.

Directors' report (continued)

Director's equity interests

Mr. Ravin Chandra and Late Mr. Peter Ryan own 3,046,877 ordinary shares collectively as at 31 December 2017. There are no other director held interests in the Company.

State of affairs

In the opinion of the directors the accompanying statement of financial position give a true and fair view of the state of affairs of the Company as at 31 December 2017 and the accompanying statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows give a true and fair view of the results, change in equity and cash flows of the Company for the year then ended, and all related party transactions have been recorded and adequately disclosed in the attached financial statements.

Dated 21st day of March 2018.

Signed in accordance with a resolution of the directors.

Directors' Declaration

The directors of the company have made a resolution that declared:

- (a) In the directors' opinion, the attached financial statements for the year ended 31 December 2017:
 - give a true and fair view of the financial position of the company as at 31December 2017 and of the performance of the company for the year ended 31 December 2017;
 - ii. have been prepared in accordance with the Companies Act 2015.

For and on behalf of the board and in accordance with a resolution of the directors.

- (b) They have received declarations as required by Section 395 of the Companies Act 2015.
- (c) At the date of this declaration, in the directors' opinion, there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

Dated 21st day of March 2018.

AUDITOR'S INDEPENDENCE DECLARATION TO THE DIRECTORS OF PACIFIC GREEN INDUSTRIES (FIJI) LIMITED

As auditor for Pacific Green Industries (Fiji) Limited for the financial year ended 31 December 2017, I declare to the best of my knowledge and belief, there have been:

- a) no contraventions of the auditor independence requirements of the Companies Act 2015 in relation to the audit; and
- b) no contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Pacific Green Industries (Fiji) Limited during the financial year.

Independent Auditor's Report

To the Shareholders of Pacific Green Industries (Fiji) Limited

Report on the audit of the financial statements

Opinion

We have audited the accompanying financial statements of Pacific Green Industries (Fiji) Limited (the 'Company'), which comprise the statement of financial position as at 31 December 2017, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 December 2017, and of its financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the ethical requirements of the International Ethics Standards Board for Accountant's Code of Ethics for Professional Accountants (IESBA Code) that are relevant to our audit of the financial statements in Fiji, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter

Completeness of Sales Revenue

Revenue is recognised when the significant risks and rewards of ownership of the underlying product have been transferred to the customer, recovery of the consideration is probable, the associated costs and possible return of the goods can be measured reliably, and there is no continuing management involvement with the goods and the amount of revenue can be measured reliably.

Transfer of risks and rewards vary depending on the individual terms of the contract of sale. For furniture sales, transfer usually occurs when the product is received by the customer, however, for some international shipments, transfer occurs upon loading of goods onto the relevant carrier at the port.

There is a risk that revenue may be understated as a result of sales being made to customers but not recorded in the financial statements. The local management comprises few personnel and can potentially override controls in place to achieve this.

How our audit addressed the key audit matter

We identified completeness of sales revenue as a significant risk, requiring special audit consideration.

Our audit procedures included, amongst others, the following:

- Understanding and considering the appropriateness of the company's revenue recognition and accounting policies.
- Understanding, evaluation and validation of controls over the sales business process.
- Substantive test of details over the sales transactions including verification of the sales against commercial invoices, verification of customer signature for evidence of receipt of stock, settlement of sales transaction, review of the shipping documents of overseas sales to ensure recognition of sales in the correct period.
- A risk based cutoff testing was performed on sales to ascertain that sales had been recorded in the correct period and recorded completely.
- The sequence of the invoices was tested to ensure that no invoices were missing and sales were recorded for all invoices in the period 1 January 2017 to 31 December 2017.
- We also tested a selection of manual journals posted in the sales revenue account balances to supporting documentation.
- Considered the movement in Gross Profit margin between the current year and last year for reasonableness.
- We also considered the adequacy of the company's disclosures in respect of revenue.

Other information

Directors and management are responsible for the other information. The other information comprises the information included in the Company's Annual Report for the year ended 31 December 2017 (but does not include the financial statements and our auditor's report thereon).

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Directors and Management for the Financial Statements

Directors and management are responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards and with the requirements of the Fiji Companies Act, 2015, and for such internal control as the directors and management determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors and management are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors and management either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The directors and management are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with the ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
 evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not
 detecting a material misstatement resulting from fraud is higher than for one resulting from error,
 as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override
 of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors and management.
- Conclude on the appropriateness of the directors and managements use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the
 disclosures, and whether the financial statements represents the underlying transactions and
 events in a manner that achieves fair presentation.

We communicate with directors and managements regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

From the matters communicated with the Directors and Management, we determine those matters that were of most significance in the audit of the financial statements for the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In our opinion the financial statements have been prepared in accordance with the requirements of the Fiji Companies Act 2015 in all material respects, and;

- a) we have been given all information, explanations and assistance necessary for the conduct of the audit; and
- b) the Company has kept financial records sufficient to enable the financial statements to be prepared and audited.

Restriction on Use

This report is made solely to the Company's shareholders, as a body, in accordance with Section 396(1) of the Fiji Companies Act 2015. Our audit work has been undertaken so that we might state to the Company's shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's shareholders as a body, for our audit work, for this report, or for the opinions we have formed.

1. Reporting entity

Pacific Green Industries (Fiji) Limited (the "Company") is a public limited company incorporated and domiciled in the Republic of Fiji. The address of the Company's registered office and principal place of business is Queens Road, Malaqereque, Sigatoka, Republic of Fiji. The Company is primarily involved in the manufacture and sale of furniture and architectural products made from coconut palmwood.

Stock exchange listing

The company was listed on the South Pacific Stock Exchange on 5 June 2001.

2. Basis of preparation

(a) Statement of accounting

The financial statements of the Company have been drawn up in accordance with the provisions of the Companies Act 2015 and International Financial Reporting Standards (IFRSs) and IFRIC interpretations as issued by the International Accounting Standards Board. The financial statements have been prepared on the basis of historical costs and do not take into account changing money values or, except where stated, current valuations of non-current assets.

The financial statements were approved by the Board of Directors on 21st March 2018.

(b) Changes in accounting policy and disclosures

(i) New and amended standards adopted by the company

There are no IFRSs or IFRIC interpretations that are effective for the first time for the financial year beginning on or after 1 January 2017 that would be expected to have a material impact on the Company.

(ii) New standards, amendments and interpretations issued but not effective for the financial year beginning 1 January 2017 and not early adopted

A number of new standards and amendments to standards and interpretations are effective for annual periods beginning after 1 January 2017, and have not been applied in preparing these financial statements. The Company is yet to assess the impact of these standards and intends to adopt the standards no later than the accounting period in which it becomes effective. None of these are expected to have a significant effect on the financial statements of the Company, except the following set out below:

Topic	Key Requirements	Effective Date
IFRS 9,	Addresses the classification, measurement and recognition of financial assets and	Annual periods
'Financial	financial liabilities. It replaces the guidance in IAS 39 that relates to the	beginning on or
instruments'	classification and measurement of financial instruments. IFRS 9 retains but	after 1 January
	simplifies the mixed measurement model and establishes three primary	2018
	measurement categories for financial assets: amortised cost, fair value through	
	other comprehensive income and fair value through profit or loss. The basis of	
	classification depends on the entity's business model and the contractual cash flow	
	characteristics of the financial asset. Investments in equity instruments are	
	required to be measured at fair value through profit or loss with the irrevocable	
	option at inception to present changes in fair value in other comprehensive income	
	not recycling. There is now a new expected credit losses model that replaces the	
	incurred loss impairment model used in IAS 39. For financial liabilities there were	
	no changes to classification and measurement except for the recognition of	
	changes in own credit risk in other comprehensive income, for liabilities	
	designated at fair value through profit or loss.	

2. Basis of preparation (continued)

(b) Changes in accounting policy and disclosures (continued)

Topic	Key Requirements	Effective Date
IFRS 15	This standard deals with revenue recognition and establishes principles for	Annual periods
'Revenue from	reporting useful information to users of financial statements about the nature,	beginning on or
Contracts with	amount, timing and uncertainty of revenue and cash flows arising from an entity's	after 1 January
Customers'	contracts with customers. Revenue is recognised when a customer obtains control	2018
	of a good or service and thus has the ability to direct the use and obtain the	
	benefits from the good or service. The standard replaces IAS 18 'Revenue' and	
	IAS 11 'Construction contracts' and related interpretations.	
IFRS 16,	This standard replaces the current guidance in IAS 17 and is a far-reaching change	Annual periods
'Leases'	in accounting by lessees in particular. Under IAS 17, lessees were required to	beginning on or
	make a distinction between a finance lease (on balance sheet) and an operating	after 1 January
	lease (off balance sheet). IFRS 16 now requires lessees to recognise a lease	2019 with earlier
	liability reflecting future lease payments and a 'right-of-use asset' for virtually all	application
	lease contracts. The IASB has included an optional exemption for certain short-	permitted if IFRS
	term leases and leases of low-value assets; however, this exemption can only be	15, 'Revenue from
	applied by lessees. For lessors, the accounting stays almost the same. However, as	Contracts with
	the IASB has updated the guidance on the definition of a lease (as well as the	Customers', is also
	guidance on the combination and separation of contracts), lessors will also be	applied.
	affected by the new standard. At the very least, the new accounting model for	
	lessees is expected to impact negotiations between lessors and lessees. Under	
	IFRS 16, a contract is, or contains, a lease if the contract conveys the right to	
	control the use of an identified asset for a period of time in exchange for	
	consideration.	

(c) Foreign currency translation

(i) Functional and presentation currency

The financial statements are presented in Fiji Dollars, which is the Company's functional currency.

(ii) Transactions and balances

Foreign currency transactions are translated to Fiji dollars at the rates of exchange ruling at the dates of the transactions. Amounts receivable and payable in foreign currencies at reporting date are translated at the rates of exchange ruling on that date. Exchange differences relating to amounts payable and receivable in foreign currencies are brought to account in the statement of profit or loss and other comprehensive income.

(d) Use of estimates and judgements

The preparation of financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

- Note 3(c) Property plant & equipment
- Note 3(h) Impairment

3. Significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These accounting policies have been consistently applied to all the years presented, unless otherwise stated.

3. Significant accounting policies (continued)

(a) Financial instruments

(i) Non-derivative financial assets

The Company initially recognises loans and receivables and deposits on the date that they are originated. All other financial assets (including assets designated at fair value through profit or loss) are recognised initially on the trade date, which is the date that the Company becomes a party to the contractual provisions of the instrument.

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows from the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Company is recognised as a separate asset.

Financial assets and liabilities are offset and the net amount presented in the Statement of Financial Position when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

The Company classifies non-derivative financial assets into the following categories: held-to-maturity financial assets, loans and receivables and available-for-sale financial assets.

Held-to-maturity financial assets

Held-to-maturity investments are non-derivative assets with fixed or determinable payments and fixed maturity that the Company has the positive intent and ability to hold to maturity, and which are not designated as at fair value through profit or loss or as available for sale. Held-to-maturity investments are carried at amortised cost using fixed interest rate.

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method, less any impairment losses.

Loans and receivables comprise cash and cash equivalents, and trade and other receivables. Cash and cash equivalents comprise cash balances and call deposits with original maturities of three months or less, net of bank overdraft.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated as available for sale.

Available-for-sale financial assets are included in non-current assets unless management intends to dispose of the investment within 12 months of the balance sheet date. Equity investments not held for trading are classified under this category. Available-for-sale financial assets are subsequently carried at cost less provision for impairment. Provision for impairment of investments is made where in the opinion of the Directors there has been a permanent diminution on the value of the investments.

(ii) Non-derivative financial liabilities

Financial liabilities are recognised initially on the trade date, which is the date that the Company becomes a party to the contractual provisions of the instrument.

The Company derecognises a financial liability when its contractual obligations are discharged, cancelled or expired. The Company's non-derivative financial liabilities comprise loans and borrowings, bank overdraft and trade and other payables and these are carried at cost. As at 31 December 2017 there were no loans and borrowings and bank overdraft.

3. Significant accounting policies (continued)

(b) Share Capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

(c) Property, Plant and Equipment

Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the costs of materials, direct labour and an appropriate proportion of overheads, any other costs directly attributable to bringing the assets to a working condition for their intended use and capitalised borrowing costs.

The gain or loss on disposal of an item of property, plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of the property, plant and equipment, and is recognised net within other income/other expenses in the statement of profit or loss and other comprehensive income.

Subsequent costs

The cost of replacing an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced item is derecognised. The costs of the day-to-day servicing of the property, plant and equipment are recognised in the statement of profit or loss and other comprehensive income as incurred.

Depreciation

Depreciation is based on the cost of an asset less its residual value. Depreciation is recognised in the statement of profit or loss and other comprehensive income on a straight-line basis over the estimated useful lives of each item of property, plant and equipment. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term.

The straight-line method of depreciation is used and depreciation rates have been applied as follows:

Leasehold landterm of leaseBuildings1.25%Motor vehicles20%Office furniture and equipment10%Plant and equipment5%

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

3. Significant accounting policies (continued)

(d) Biological assets

The Company has engaged in an Eco park project which consists of planting exotic, high-end hardwoods (sandalwood, teak and mahogany). In measuring fair value of the plants, management estimates and judgements are required for the determination of fair value.

At this stage the fair value of these plants cannot be reliably measured as very little biological transformation has taken place since initial cost incurrence and the impact of the biological transformation on price is not expected to be material, and its cost is approximated to be its fair value.

(e) Intangible assets

Intangible assets represent rights to an exclusive dealership to sell the Company's products in Australia.

The intangible is shown at historical cost less amortisation. Amortisation is calculated using the straight-line method to allocate the cost of the exclusive dealership over its estimated useful life of 5 years.

(f) Leased assets

Leases in terms of which the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. Upon initial recognition the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset.

(g) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is based on the first-in first-out principle and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred and bringing them to their existing condition and location. In the case of manufactured inventories and work-in-progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

(h) Impairment

(i) Financial assets

A financial asset not designated at fair value through the statement of profit or loss and other comprehensive income is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognised in the statement of profit or loss and other comprehensive income and reflected in an allowance account against loans and receivables or held-to-maturity investment. When a subsequent event (e.g. repayment by a debtor) causes the amount of impairment loss to decrease the impairment loss is reversed through the statement of profit or loss and other comprehensive income.

3. Significant accounting policies (continued)

(h) Impairment (continued)

(i) Financial assets (continued)

Impairment losses on available-for-sale financial assets measured at fair value are recognised by reclassifying the losses accumulated in the fair value reserve in equity, to the statement of profit or loss and other comprehensive income. The cumulative loss that is reclassified from equity to profit or loss is the difference between the acquisition cost, net of any principal repayment and amortisation and the current fair value, less any impairment loss recognised previously in the statement of profit or loss and other comprehensive income. If, in a subsequent period, the fair value of an impaired available-for-sale debt security increases and the increase can be related objectively to an event occurring after the impairment loss was recognised in the statement of profit or loss and other comprehensive income, then the impairment loss is reversed, with the amount of the reversal recognised in the statement of profit or loss and other comprehensive income. However, any subsequent recovery in the fair value of an impaired available-for-sale equity security is recognised in other comprehensive income.

(ii) Non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. An impairment loss is recognised if the carrying amount of an asset or its related cash-generating unit (CGU) exceeds its estimated recoverable amount.

The recoverable amount of an asset or CGU is the greater value of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGU.

Impairment losses are recognised in the statement of profit or loss and other comprehensive income.

(i) Employee benefits

Contributions paid to the Fiji National Provident Fund on behalf of employees to secure retirement benefits are included in the statement of profit or loss and other comprehensive income. Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the relative service is provided.

(j) Trade and other payables

Trade and other payables are not interest-bearing and are stated at cost. A liability is recognised in the statement of financial position when the Company has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, liabilities are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

(k) Revenue

Revenue from the sale of goods is measured at the consideration received or receivable, net of returns, allowances and trade discounts. Revenue is recognised when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of the goods can be estimated reliably, and there is no continuing management involvement with the goods and the amount of revenue can be measured reliably.

3. Significant accounting policies (continued)

(k) Revenue (continued)

Transfer of risks and rewards vary depending on the individual terms of the contract of sale. For furniture sales, transfer usually occurs when the product is received by the customer, however, for some international shipments transfer occurs upon loading of goods onto the relevant carrier at the port.

(l) Lease payments

Payments made under operating leases are recognised in the statement of profit or loss and other comprehensive income on a straight-line basis over the term of the lease. Lease incentives received are recognised as an integral part of the total lease expense, over the term of the lease.

Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

(m) Income tax

Income tax expense comprises current and deferred income tax. Current income tax and deferred income tax is recognised in the statement of profit or loss and other comprehensive income except to the extent that it relates to items recognised directly in equity or in other comprehensive income.

Current income tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred income tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred income tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred income tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets.

A deferred income tax asset is recognised for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred income tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(n) Earnings per share

The Company presents basic and diluted earnings per share data for its ordinary shares. Basic earnings per share are calculated by dividing the profit or loss attributable to members of the Company by the weighted average number of shares of the Company.

Diluted earnings per share is the same as basic earnings per share for the Company as there are no ordinary shares that are considered to be dilutive.

4. Financial risk management

The Company does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes. The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates.

4. Financial risk management (continued)

(a) Foreign currency risk management

The Company is mainly exposed to foreign exchange risk arising from various currency exposures with respect to purchase of inventory, primarily with respect to the AUD and USD. Foreign exchange risk may arise from future commercial transactions and liabilities. Management has set up bank accounts in USD, AUD and FJD to reduce any negative impact.

(b) Credit risk management

Credit risk refers to the risk that a customer or counter party will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of dealing with credit worthy customers as a means of mitigating the risk of financial loss from defaults. The Company's exposure and the credit ratings of its counter parties are continuously monitored. Credit exposure is controlled by customer credit limits that are reviewed and approved by the management on a regular basis.

Customers that fail to meet the Company's benchmark credit worthiness may transact with the Company only on a prepayment basis. In any case, the Company predominantly requires that a deposit be paid before commencing production and that the balance is settled before the product is dispatched. The Company does not require collateral in respect of trade and other receivables.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	2017	2016
	\$	\$
Cash at bank	580,180	953,527
Trade and other receivables	274,867	397,224
	855,047	1,350,751

(c) Liquidity risk management

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company manages liquidity risk by maintaining adequate banking facilities and collecting advance deposits from clients and continuously monitoring forecast and actual cash flows. At 31 December 2017 and 31 December 2016, the company's non-derivative financial liabilities comprised of trade and other payables and income tax payables. The contractual maturity dates for all their liabilities is less than 12 months from the respective reporting dates, at the values as stated in the statement of financial position, or any other interest bearing debt.

(d) Interest rate risk management

The Company can be exposed to interest rate risk if its overdraft facility is on variable interest rates. As at 31 December 2017 there was no bank overdraft.

(e) Capital risk management

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern in order to provide returns to its shareholders.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders or issue new shares or sell assets to reduce debt.

The ecological park was opened in January 2012 in conjunction with the new factory opening. The Eco Park is a key element in the rebuilding of the Sigatoka factory. The Park is about promoting sustainability in action as it allows visitors to learn about the 'tree of life'.

The Eco Park project consists of planting exotic, high-end hardwoods (sandalwood, teak and mahogany). At this stage the fair value of these plants cannot be reliably measured as very little biological transformation has taken place since initial cost incurrence and the impact of the biological transformation on price is not expected to be material. Therefore, its cost approximates its fair value. The major cost incurred in relation to the Eco Park project was the buying and planting the seedlings, fencing, landscaping, machinery and tools used and labour cost.

		101,329	54,525
	Non-current		
	Amounts owed by Golden Palmwood		
	International Limited (GPIL)	173,538	342,699

The Company had established a subsidiary, Dongguan Golden Palmwood Furniture Pty Limited (DGPL) in the Republic of China in 2004 and had a 70% ownership interest. On 30 June 2013, the Company sold all its shares in the subsidiary to a foreign private company, Golden Palmwood International Limited (GPIL). The sale was approved by the board of directors at an extraordinary general meeting held on 28th February 2013 at a price of \$2,500,000. According to the terms of the agreement, the amount is repayable over 5 years with final repayment due by 30 June 2018.

Key terms of the sale include the following:

- Two directors on DGPL's board shall be the appointees and/or nominees of the Company until such time as the full purchase price is paid.
- The purchase price shall be paid in 5 consecutive yearly instalment with the first instalment payment falling due one year after the date of execution of agreement and the last instalment payment falling due on 5 years thereafter. Interest will accrue on any outstanding balance, at a rate to be determined by the Company.
- Instalments would be made by way of purchase of palmwood goods, components, finished products and other
 materials from DGPL to a minimum value of FJ\$500,000 per annum and a maximum value of FJ\$1,100,000
 per annum. The purchases would be paid by GPIL, thereby reducing its debt to the Company. The Company
 shall not place orders and neither shall DGPL be obliged to deliver any orders placed if such orders shall in
 totality exceed the value of US\$54,000 per month.
- Any trademarks, licences, patents, and methods used and owned by the Company and licensed to DGPL for
 use by DGPL shall not be deemed to be transferred or assigned to GPIL. Under a separate agreement, the
 Company has licensed GPIL to use trademarks owned by the Company free of charge up to 29 June 2018.
 From 30 June 2018, GPIL will be required to pay a royalty of 2.75% of the wholesale selling price of the
 relevant goods and services sold by GPIL.
- The amount owed by GPIL is secured; GPIL has granted to the Company a security interest in GPIL's right, title and interest in the shares it acquired.

15. Earnings per share

Basic earnings per share

The calculation of basic earnings per share is as follows:

	2017 \$	2016 \$
Net profit after tax attributable to shareholders	387,928	321,766
Weighted average number of shares for the		
year ended 31 December	7,619,234	7,619,234
Basic earnings per share	0.05	0.04

Diluted earnings per share

Diluted earnings per share at 31 December 2017is the same as basic earnings per share as there are no ordinary shares which are considered dilutive.

		2017 \$	2016 \$
16.	Trade and other payables	Ψ	*
	Trade creditors and accruals	1,331,328	1,211,582
	VAT payable	17,094	25,608
	Amounts payable to Dongguan Golden		
	Palmwood Furniture Pty Limited (DGPL)	227,972	870,955
		1,576,394	2,108,145

The amount owing to DGPL (previously a subsidiary) relates to purchases of finished goods, net of salaries, consultancy fees, exhibition expenses and travelling expenses which have been recharged by the Company to DGPL. The balance has no fixed term of repayment.

17. Commitments and contingencies

(a) Operating lease commitments

On 16 October 1997, the company entered into native lease agreements with the Native Land Trust Board to lease land at Lot 1 and 2 on Plan SO 3011, Cuvu, Nadroga. The leased land on Lot 1 has a term of 75 years ending on 28 February 2062 and the leased land on Lot 2 had expired in the current financial year. Company is in the process of obtaining a renewal.

The future lease commitments are as follow:

	2017	2016
	\$	\$
Payable not later than 1 year	13,200	13,030
Payable later than 1 year but not later than 5		
years	52,800	51,980
Payable later than 5 years	517,000	528,071
	583,000	593,081

(b) Capital commitments

Capital commitments for the Company not otherwise provided for in the financial statements amounted to \$Nil (2016: \$Nil).

(c) Contingent liabilities

The Company has no contingent liabilities as at 31 December 2017 (2016: \$Nil).

18. Related parties

(a) Directors

The following were directors of the company during the year:

Mr Samuel Ram - Chairman

Mr Ravin Chandra

Mr Ashnil Prasad

Mr Peter Ryan (Expired 29th March 2017)

Mr Abilash Ram (Appointed on 21st March 2017)

Corporate Governance

In June 2008, the Capital Markets Development Authority (now the Capital Markets Unit of Reserve Bank of Fiji) published the Corporate Governance Code for the Capital Markets (The Code). The Code attributes 10 core principles together with the best practice recommendations. This code is the basis for the Company corporate governance standards.

Principle	Company's Response
Establish clear	The Company Policy sets out the powers and duties of directors in terms of managing the
responsibilities	Company effectively and efficiently.
for board oversight	
Constitute an Effective Board	Directors are nominated by Shareholders at the Annual General Meeting and elected upon approval from major shareholders. One third of the total strength of the Board retires by rotation each year and is eligible for re-election.
Appointment of the Chief Executive Officer (CEO)	The Board appoints the Company Managing Director.
Board and Company Secretary	The Company Secretary is the administrative link between the Board and the Management and is responsible for ensuring compliance to company activities. All directors have access to the Company Secretary.
Timely and Balanced Disclosure	Board meetings are held regularly (at least three meetings per year) to update the directors on the Company performance and get major decisions clarified and passed at Board level. The Company Managing Director is in constant contact with the other board of directors for any issues arising within the Company. The Company periodically releases the required information to the public by way of market announcements, as required by the rules of the SPSE.
Promote ethical and responsible decision- making	The Company promotes and believes that all directors and employees uphold high standards, honesty, fairness, and equity in all aspects of their employment and association with the Company.
Register of interests	The interests of the Directors if any are noted during Board meetings.
Respect the rights of the shareholders	An Annual General Meeting is held every year in accordance with the Articles of Association of the Company. The Annual Report is also published each year and circulated to the shareholders of the Company.
Accountability and	The Company is audited externally each year and receives an independent audit report which
Audit	forms part of the Annual Report.
	The Audit and Finance Committee is responsible for overseeing the financial reporting and disclosure process, performance and independence of the external auditors, monitoring
	risk management policies and practices with management.
Recognise and Manage Risk	The Company has in place a Risk Management Policy to ensure that key business and operational risks are identified and appropriate controls and procedures are put in place to manage those risks.

Mr Adish Naidu (Appointed 6th July 2017)	3	1	-

Board Sub-Committees: The Board has two standing committees.

(i) The Audit and Finance Committee inclusive of Risk and Compliance

The Audit and Finance Committee inclusive of Risk and Compliance are selected by the Board and was formed in 2009. They are responsible for the external audit of the Company's affairs, reviewing half year and annual financial statements. They assist the Board in fulfilling its responsibilities by coming up with recommendations, advice and information concerning accounting and reporting responsibilities and evaluating risk management practices. The Committee meets twice a year or as required. The Committee comprises Mr. Ravin Chandra and Mr. Dominic Ryan.

(ii) The Strategic Sub Committee

The Strategic Committee comprises all the Board members and is chaired by the Board Chairman. The Directors are briefed with their roles and responsibilities as Board members of the Group. The Group strategic plans are reviewed annually by all the Board members.
