

**14 JUNE 2021****MARKET RELEASE****THE ASCO FOUNDATION DONATES TO THE SAI PREMA FOUNDATION FIJI**

The Asco Foundation (“Foundation”), the charitable arm of Toyota Tsusho (South Sea) Limited (“TTS”), proudly donated FJD30,000 to support the Sai Prema Foundation Fiji (“SPFF”).

A collaborative effort with SPFF provided 500 families with much-needed food ration during these difficult times.

Mr Kuwahara, TTS and the Asco Foundation Chairman, says the initiative will provide much-needed relief to the Fijian families in dire need. Both TTS and the Foundation believe in the act of giving back to our communities and firmly upholding our corporate social responsibility.

Mr Kuwahara further added that the Foundation is currently studying other programs to support the Fijian government’s and non-profit partner organisations efforts.

Asco Motors CEO/Director and Asco Foundation Trustee, Mr Craig Sims, says helping to assist families in the West is a priority as many of them have been affected first by the closure of the tourism industry and now with the current pandemic lockdowns.

Sims added that the Asco Foundation wanted to reach out and assist as many families as they could and chose to work with the Sai Prema Foundation Fiji because of their impressive record of reaching out to all communities in Fiji.

The Foundation and TTS board, its management teams, and staff extend their best wishes to the Fijian public in these difficult times and applaud the tremendous effort from all our frontline personnel.

Sincerely
