

PORTDENARAUMARINA

OFFICIAL PRESS RELEASE

FOR IMMEDIATE RELEASE

Friday 29th October 2021

--STARTS--

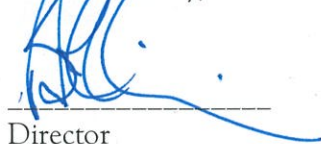

Port Denarau Marina wishes to update our shareholders that we've had a significant fire incident in one of our tenanted workshops in the early hours of this morning. We had a full structure fire response with several fire brigades, firefighters, and equipment on the scene.

The main marina operations are unaffected; however, boatyard and hardstand are currently shut down as we await clearance from the National Fire Authority team onsite.

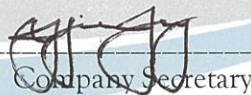

It's difficult to ascertain the extent of the damage or the origins of the fire yet until all assessments by NFA is completed.

The firefighters and our team have done a commendable job to contain the fire from spreading to other adjoining buildings. There was no loss of life.

Yours faithfully,

Director

Company Secretary
