# Statement to the South Pacific Stock Exchange March 29<sup>th</sup>, 2023 COMMUNICATIONS FIJI LTD Announces profit and final dividend for the year ended, 31<sup>st</sup> December 2022

Communications Fiji Ltd (CFL), the South Pacific regions largest commercial broadcaster, announced today a final group profit after tax of \$1,551,061 (2021 \$797,336) for the year ended December 31<sup>st</sup>,2022.

Group Chairman William Parkinson said the result was a strong one considering the challenges faced in both Fiji and Papua New Guinea. CFL Fiji operations recorded an improvement in performance delivering an after-tax profit of \$842,840 (2021 \$364,350).

PNG FM recorded an after-tax profit of K1,146,464 (2021: K756,909). The increase in profit resulted largely from the Total Event Company and the resumption of public events.

Communications Fiji Ltd announced a final dividend of 13 cents per share. This takes dividends paid out for the year ended December 31<sup>st</sup>, 2022, to 17 cents per share (2021: 8 cents). The record date will be 20<sup>th</sup> April, ex benefit date 17<sup>th</sup> April, and payment will be made on 28<sup>th</sup> April 2023.

Looking ahead Mr Parkinson said CFL comes out of this difficult time with a strong balance sheet and well equipped to tackle the future. PNG FM expects to commence construction of its new studio complex shortly and CFL Fiji is expecting good growth in a much more positive political and economic environment.

"We're looking forward to relaunching Showcase Fiji and are already seeing growth across our broadcast and digital products," said Mr Parkinson.

The Board of PNG FM Ltd also announced the appointment of CFL Fiji General Manager, Charles Taylor, as a Director. "This recognises his personal experience in the PNG market and the increased role CFL Fiji is playing in providing management support to PNG FM" said PNG FM Board Chair Mr. Peter Aitsi.

COMMUNICATIONS FIJI LIMITED AND ITS SUBSIDIARY COMPANIES CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2022

# COMMUNICATIONS FIJI LIMITED AND ITS SUBSIDIARY COMPANIES CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2022

# Contents

Directors' report	2 - 4
Directors' declaration	5
Auditor's independence declaration	6
Independent audit report	7 - 11
Consolidated statement of profit or loss and other comprehensive income	12
Consolidated statement of financial position	13
Consolidated statement of cash flows	14
Consolidated statement of changes in equity	15
Notes to the consolidated financial statements	16 - 53

In accordance with a resolution of the Board of Directors of Communications Fiji Limited (the "Company"), the Directors herewith submit the consolidated statement of financial position of the Company and its subsidiaries (collectively "the Group") as at 31 December 2022, the related consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended on that date and report as follows:

# Directors

Directors at the date of this report are:

William Parkinson Emily King Josephine Yee Joy Maciu Lumelume Thelma Savua Sufinaaz Dean

Principal activity

The principal business activity of the holding Company and its subsidiaries in the course of the year was the operation of commercial radio stations, events organisation and owners of property. There has been no significant change in this activity during the year. The associate companies provide cinema entertainment and renting of a property respectively.

### Results

The operating profit of the Group for the year was \$1,551,061 (2021: \$797,336) after providing for income tax expense of \$513,038 (2021: \$278,811).

Dividends

The dividends declared during the year was \$284,640 (2021: \$284,640).

Basis of Accounting - Going Concern

The financial statements of the Group have been prepared on a going concern basis. The Directors consider the application of the going concern principle to be appropriate in the preparation of these financial statements as they believe that the Group has plans and strategies, together with the support of its principal shareholders and lenders to generate required funding to meet its liabilities as and when they fall due over the next twelve months. Accordingly, the Directors believe that the classification and carrying amounts of the assets and liabilities as stated in the financial statements to be appropriate.

# Bad Debts and Allowance for Impairment Loss

Prior to the completion of the Group's financial statements, the Directors took reasonable steps to ascertain that action had been taken in relation to the writing off of bad debts and the making of allowance for impairment loss. In the opinion of the Directors, adequate allowance has been made for impairment loss.

As at the date of this report, the Directors are not aware of any circumstances, which would render the values attributed to current and non-current assets in the Group's financial statements misleading.

# **Unusual Transactions**

In the opinion of the Directors, the results of the operations of the Group during the financial year were not substantially affected by any item, transaction or event of a material unusual nature, nor has there arisen between the end of the financial year and the date of this report, any item, transaction or event of a material unusual nature, likely in the opinion of the Directors, to affect substantially the results of the operations of the Group in the current financial year.

# Significant Events During the Year

FM Haus Ples Limited's initial construction planning was approved by the board. The construction tender has been approved and awarded to CRCG (China Railway Construction Group Co. Ltd).

Communications (Fiji) Limited's profit had significantly increased this year as a result of increased revenue from campaign adverstisements that were driven by the General Elections held in Fiji in December 2022.

# Events Subsequent to Balance Date

Subsequent to the balance date, the directors have resolved to transfer 7,295,000 shares in its associate company, Paradise Cinemas (PNG) Limited to City Pharmacy Limited for a consideration of K1.00. The investment has been fully impaired in the prior years. The Group is in the process of completing the formalities relating to the share transfer.

Apart from the above, no other matters or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

### Other circumstances

As at the date of this report:

- (i) no charge on the assets of the Group has been given since the end of the financial year to secure the liabilities of any other person;
- (ii) no contingent liabilities have arisen since the end of the financial year for which the Group could become liable; and
- (iii) no contingent liabilities or other liabilities of the Group have become or are likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Group to meet its obligations as and when they fall due.

As at the date of this report, the Directors are not aware of any circumstances that have arisen, not otherwise dealt with in this report or the Group's financial statements, which would make adherence to the existing method of valuation of assets or liabilities of the Group misleading or inappropriate.

### Directors' Benefits

Since the end of the previous financial year, no Director has received or become entitled to receive a benefit (other than those included in the aggregate amount of emoluments received or due and receivable by Directors shown in the financial statements or received as the fixed salary of a full-time employee of the Group or of a related corporation) by reason of a contract made by the Group or by a related corporation with the Director or with a firm of which he/she is a member, or with a company in which he/she has a substantial financial interest.

### Directors' Interests

Particulars of Directors' interests in the ordinary shares of the holding company during the year are as follows:

	Direct interest	Indirect interest
Thelma Savua	2,000	Nil
Sufinaaz Dean	Nil	925,345.50
William Parkinson	Níl	925,345.50

Auditor Independence

The Directors have obtained an independence declaration from the Group's auditor, BDO. A copy of the auditor's independence declaration is set out in the *Auditor's Independence Declaration to the Directors* on page 6.

Signed on behalf of the Board of Directors in accordance with a resolution of the Directors.

Dated this 29th day of March 2023.

Director

Director

This Directors' Declaration is required by the Companies Act, 2015.

The Directors of the Company have made a resolution that declared:

- (i) In the Directors' opinion, the financial statements and notes of the Group for the financial year ended 31 December 2022;
  - a) give a true and fair view of the financial position of the Group as at 31 December 2022 and of the performance of the Group for the year ended 31 December 2022;
  - b) have been made out in accordance with the Companies Act 2015.
- (ii) they have received declarations as required by Section 395 of the Companies Act 2015;
- (iii) At the date of this declaration, in the Directors' opinion, there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

Signed on behalf of the Board of Directors in accordance with a resolution of the Directors.

Dated this 29th day of March 2023.

# INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Communications Fiji Limited

# Report on the Audit of the Consolidated Financial Statements

### Opinion

We have audited the consolidated financial statements of Communications Fiji Limited and its subsidiary companies (the Group), which comprise the consolidated statement of financial position as at 31 December 2022, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2022, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISA). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), together with the ethical requirements that are relevant to our audit of the financial statements in Fiji and we have fulfilled our ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the matter
Goodwill on Consolidation (Refer Disclosure	·
The carrying value of goodwill balance in the consolidated financial statements of the Group in relation to PNG FM Limited is \$1,137,000 as at 31 December 2022 (2021: \$1,137,000). Management is required to carry out an annual impairment test for goodwill being an asset with an indefinite useful life. This process is complex and highly judgmental given the involvement of complex calculations, judgements, estimates and assumptions. Risk exist that goodwill is overstated in the books of account should any judgments or assumptions be considered inappropriate.	<ul> <li>We have:</li> <li>assessed the design and implementation of the Group's practice and methodology around the impairment assessment process;</li> <li>performed a detailed review of the valuation methodology used including, the key assumptions used;</li> <li>assessed the reasonableness of forecasted future cash flows by comparison to historical performance and future outlook considering future uncertainties;</li> </ul>

BDO, Chartered Accountants, a Fiji Partnership, is a member firm of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

# Key Audit Matters (Cont'd)

Key audit matter	How our audit addressed the matter
Goodwill on Consolidation (Refer Disclosure Note 16) (Cont'd)	
The Group has used an external valuer to assess the fair value and value in use of the subsidiary entity, PNG FM Limited for assessment of impairment of Goodwill.	<ul> <li>assessed the reasonability of key assumptions such as future maintainable earnings and earnings multiples, discount rate, future and perpetual growth rate;</li> </ul>
<ul> <li>Primarily, Future Maintainable Earnings method and Discounted Cash Flow method have been used by the external valuer for the purpose of determining fair value less costs to sell and value in use of the cash generating unit.</li> <li>Future Maintainable Earnings method is based on assumptions about future maintainable earnings and earnings multiples which is based on forecasted results for future and earnings multiples of comparable similar businesses.</li> </ul>	<ul> <li>in assessing the reasonability of earning multiples, cash flows, discount rates and growth rates used by the valuer, we evaluated the reasonability and appropriateness of the assumptions used and factors considered by the valuer in relation to business prospects in PNG for the industry, size of the business, liquidity risk, competition, inflation, interest rates economic condition and political instabitly in PNG:</li> </ul>
Discounted Cash Flow method involves key assumptions in relation to the expected future cash flows for the five year forecasting period, discount rates, future growth rates and perpetual growth rate of the subsidiary entity. Given determination of recoverability of	<ul> <li>performed sensitivity analysis on key assumptions, including multiples used, discount rate and growth rate;</li> <li>performed a detailed review of the disclosures made in the financial statements in respect of testing of goodwill for impairment in line with the requirements of applicable accounting</li> </ul>
carrying value of goodwill requires significant estimates and judgements concerning the future maintainable earnings and future cash flows, associated discount rates, growth rates and earnings multiples of the business based on managements' view of future business prospects, we considered this as a key audit matter.	standards.
Refer to the goodwill impairment critical accounting judgment and note 3(c) of the financial statements for further details.	

# To the Shareholders of Communications Fiji Limited (Cont'd)

# Other Information

The Management and Directors are responsible for the other information. The other information that we received comprise of the information included in the directors report and the Annual Report of the Group for the year ended 31 December 2022 but does not include the financial statements and the auditor's report thereon. The Annual Report is expected to be made available to us after the date of the auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated. If, based upon the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of the Management and Those Charged with Governance for the Consolidated Financial Statements

The management and directors are responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS and the Companies Act, 2015 and for such internal control as the management and directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the management and directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable matters related to going concern and using the going concern basis of accounting unless the management and directors either intend to liquidate the companies in the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

# Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISA will always detect a material misstatement when it exists. Misstatement can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the consolidated financial statements.

As part of an audit in accordance with ISA, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

• Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

# To the Shareholders of Communications Fiji Limited (Cont'd)

### Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (Cont'd)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management and directors.
- Conclude on the appropriateness of the management's and directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the companies in the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the management and directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the management and directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the management and directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### To the Shareholders of Communications Fiji Limited (Cont'd)

#### **Report on Other Legal and Regulatory Requirements**

In our opinion, the consolidated financial statements have been prepared in accordance with the requirements of the Companies Act, 2015 in all material respects, and;

- a) we have been given all information, explanations and assistance necessary for the conduct of the audit; and
- b) the Group has kept financial records sufficient to enable the consolidated financial statements to be prepared and audited.

Total equity		16,352,682	14,977,950

The accompanying notes form an integral part of this Consolidated Statement of Changes in Equity.

- 1. General Information
- a) Corporate Information

The consolidated financial statements of Communications Fiji Limited and its subsidiary companies (the Group) for the year ended 31 December 2022 were authorised for issue with a resolution of the Directors on 29 March 2023. Communications Fiji Limited (the holding Company) is a limited liability company incorporated and domiciled in Fiji whose shares are publicly traded on the South Pacific Stock Exchange.

b) Principal activity

The principal business activity of the holding Company and its subsidiaries in the course of the year was the operation of commercial radio stations, events organisation and owners of property. There has been no significant change in this activity during the year. The associate companies provide cinema entertainment and renting of a property respectively.

- 2. Basis of preparation
- a) Basis of preparation

The consolidated financial statements have been prepared under the historical cost convention, except for the valuation of financial assets at fair value through other comprehensive income. Historical cost is based on the fair values of the consideration given in exchange for assets.

In the application of International Financial Reporting Standards (IFRS), management is required to make judgments, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstance, the results of which form the basis of making the judgments. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. Judgments made by management in the application of IFRS that have significant effects on the financial statements and estimates with a significant risk of material adjustments in the future periods are disclosed, where applicable, in the relevant notes to the financial statements.

Accounting policies are selected and applied in a manner which ensures that the resulting financial information satisfies the concepts of relevance and reliability, thereby ensuring that the substance of the underlying transactions or other events is reported. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are critical to the financial statements have been disclosed under notes to the financial statements, where applicable.

b) Statement of compliance

The financial statements of the Group have been prepared in accordance with IFRS and in compliance with the requirements of the Companies Act, 2015.

# 2. Basis of preparation continued

# c) Basis of consolidation

The consolidated financial statements comprise the financial statements of the holding company and its subsidiaries as at 31 December 2022. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect its returns.

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- the contractual arrangement with the other vote holders of the investee;
- rights arising from other contractual arrangements; and
- the Group's voting rights and potential voting rights.

The Group re-assesses whether it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed off during the year are included in the statement of profit or loss and other comprehensive income from the date the Group gains control until the date the Group ceases to control the subsidiary.

A change in ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- derecognises the assets (including goodwill) and liabilities of the subsidiary;
- derecognises the cumulative translation differences recorded in equity;
- recognises the fair value of the consideration received;
- recognises the fair value of any investment retained;
- recognises any surplus or deficit in profit or loss; and
- reclassifies the parent's share of components previously recognised in other comprehensive income to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies.

All intra-group balances, income and expenses and unrealised gains and losses resulting from intra-group transactions are eliminated in full.

- 2. Basis of preparation continued
- c) Basis of consolidation continued

On consolidation, the subsidiary company PNG FM Limited's and FM Haus Ples Limited's assets and liabilities has been translated at the rate of exchange ruling at balance date. Revenue and expense accounts have been translated using the average of the exchange rates ruling at the end of each month during the current financial year. The rate used to translate the assets and liabilities of PNG FM was 1.7094:1 (2021: 1.7778:1) while the average rate used to translate revenue and expense accounts was 1.5345:1 (2021: 1.6307:1).

d) Comparatives

Where necessary, comparative figures have been re-grouped to conform with changes in presentation in the current year.

e) Changes in accounting policies

New standards, interpretations and amendments effective during the year

New and amended standards that have been adopted in the annual financial statements for the year ended 31 December 2022, but have not had a significant effect on the Group are:

- Amendments to IAS 16 Property, Plant and Equipment: Proceeds before intended Use;
- Amendments to IFRS 1 and IFRS 9;
- Amendments to IFRS 3 References to Conceptual Framework; and
- Amendments to IAS 37 Onerous Contracts Cost of Fulfilling a Contract.

New standards, interpretations and amendments not yet effective

The following amendments are effective for the period beginning 1 January 2023:

- Amendments to IAS 1 and IFRS Practice Statement 2 Disclosure of Accounting Policies;
- Amendments to IAS 8 Definition of Accounting Estimates; and
- Amendments to IAS 12 Deferred Tax Related to Assets and Liabilities arising from a Single Transaction.

The Group is currently assessing the impact of these new accounting standards and amendments. The Group does not expect any other standards issued by the IASB, but not yet effective, to have a material impact on the Group.

- 2. Basis of preparation continued
- f) Basis of accounting Going concern

The financial statements of the Group have been prepared on a going concern basis. The Directors consider the application of the going concern principle to be appropriate in the preparation of these consolidated financial statements as they believe that the Group has plans and strategies, together with the support of its principal shareholders and lenders to generate required funding to meet its liabilities as and when they fall due over the next twelve months. Accordingly, Directors believe that the classification and carrying amounts of the assets and liabilities as stated in the financial statements to be appropriate.

3. Summary of significant accounting policies

The principal accounting policies adopted by the Group are stated to assist in a general understanding of the consolidated financial statements. The accounting policies adopted are consistent with those of the previous year except as stated otherwise.

a) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is reflected in the statement of profit or loss in the year in which the expenditure is incurred. The useful lives of intangible assets are assessed as either finite or indefinite. Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired.

The amortisation period and the amortisation method for an intangible asset with a finite useful life is reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortisation period or method, as appropriate, and are treated as a change in accounting estimate. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit or loss in the expense category consistent with the function of intangible asset.

- 3. Summary of significant accounting policies continued
- a) Intangible assets *continued*

Intangible assets with indefinite useful lives are tested for impairment annually either individually or at the cash generating unit level. Such intangibles are not amortised. The useful life of an intangible asset with an indefinite life is reviewed annually to determine whether indefinite life assessment continues to be supportable. If not, the change is the useful life assessment from indefinite to finite is made on a prospective basis. Gains or losses arising from derecognising of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss and other comprehensive income when the asset is derecognised.

b) Investment in Associate or Joint Venture

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

Under the equity method, the investment in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is neither amortised nor individually tested for impairment.

The statement of profit or loss reflects the Group's share of the results of operations of the associate or joint venture. Any change in other comprehensive income of those investees is presented as part of the Group's other comprehensive income. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains or losses resulting from transactions between the Group and the associate or joint venture are eliminated to the extent of the interest in the associate or joint venture.

The aggregate of the Group's share of profit or loss of an associate is shown on the face of the statement of profit or loss and other comprehensive income and represents profit or loss after tax.

The financial statements of the associate or joint venture are prepared for the same reporting period as the Group. Where necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate or joint venture. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate or joint venture is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value, then recognises the loss as 'Share of profit of associate or joint venture' in the statement of profit or loss and other comprehensive income.

- 3. Summary of significant accounting policies continued
- b) Investment in Associate or Joint Venture continued

Upon loss of significant influence over the associate or joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence, the fair value of the retained investment and proceeds from disposal is recognised in profit or loss and other comprehensive income.

c) Impairment of non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or other groups of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiary or other available fair value indicators.

Impairment losses of continuing operations are recognised in the statement of profit or loss and other comprehensive income in those expense categories consistent with the function of the impaired assets, except for property previously revalued where the revaluation was taken to equity. In this case, the impairment is also recognised in equity up to the amount of any previous revaluation.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Group makes an estimate of recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss and other comprehensive income unless the asset is carried at revalued amount, in which case the reversal is treated as a revaluation increase.

The following criteria are also applied in assessing impairment of specific assets:

### Goodwill

The Group assesses whether there are any indication that goodwill is impaired at each reporting date. Goodwill is tested for impairment annually and when circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill by assessing the recoverable amount of the cash-generating units, to which the goodwill relates. Where the recoverable amount of the cash-generating unit is less than their carrying amount an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods. The Group performs its annual impairment test of goodwill as at 31 December.

- 3. Summary of significant accounting policies continued
- c) Impairment of non-financial assets *continued*

### Intangible assets

Intangible assets with indefinite useful lives are tested for impairment annually as at 31 December either individually or at the cash generating unit level, as appropriate.

# Associate and joint venture

After application of the equity method, the Group determines whether it is necessary to recognise an additional impairment loss of the Group's investment in its associate or joint venture. The Group determines at each balance date whether there is any objective evidence that the investment in associate or joint venture and the acquisition cost requires impairment and recognises the amount in the statement of profit or loss and other comprehensive income.

# d) Financial Instruments

(i) Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at Fair Value Through Profit or Loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

(ii) Classification and subsequent measurement

### Financial assets

On initial recognition, a financial asset is classified as measured at: amortised cost; (Fair Value through Other Comprehensive Income (FVOCI) – debt investment; FVOCI – equity investment; or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

- 3. Summary of significant accounting policies *continued*
- d) Financial Instruments *continued* 
  - (ii) Classification and subsequent measurement continued

# Financial assets continued

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

# Financial assets: Reclassifications

Financial assets are not reclassified subsequent to their initial recognition, except in the period after the Group changes its business model for managing financial assets.

Financial assets: Subsequent measurement and gains and losses

### Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

### Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

# Debt investments at FVOCI

These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

# 3. Summary of significant accounting policies continued

### d) Financial Instruments continued

(ii) Classification and subsequent measurement continued

# Equity investments at FVOCI

These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

# (iii) Derecognition

# Financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognised.

### Financial liabilities

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

### (iv) Modifications of financial assets

If the terms of a financial asset are modified, the Group evaluates whether the cash flows of the modified asset are substantially different. If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognised (see (3(d) (iii))) and a new financial asset is recognised at fair value.

If the cash flows of the modified asset carried at amortised cost are not substantially different, then the modification does not result in derecognition of the financial asset. In this case, the Group recalculates the gross carrying amount of the financial asset and recognises the amount arising from adjusting the gross carrying amount as a modification gain or loss in profit or loss. If such a modification is carried out because of financial difficulties of the borrower (see (3(e)), then the gain or loss is presented together with impairment losses. In other cases, it is presented as interest income (see (3(f)).

- 3. Summary of significant accounting policies *continued*
- d) Financial Instruments continued
  - (v) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

e) Impairment of financial instruments

The Group recognises loss allowances for Expected Credit Losses (ECLs) on financial assets measured at amortised cost. No impairment loss is recognised on equity investment.

The Group measures loss allowances at an amount equal to lifetime ECL, except for the following, which are measured as 12-month ECL:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables and contract assets are always measured at an amount equal to lifetime ECL.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Group considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- the financial asset is more than 90 days past due.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

- 3. Summary of significant accounting policies continued
- e) Impairment of financial instruments *continued*

Measurement of ECLs

ECLs are a probability-weighted estimates of credit losses. They are measured as follows:

- financial assets that are not credit-impaired at the reporting date: as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive); and
- financial assets that are credit-impaired at the reporting date: as the difference between the gross carrying amount and the present value of estimated future cash flows.

ECLs are discounted at the effective interest rate of the financial asset.

# Credit-impaired financial assets

At each reporting date, the Group assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 90 days past due;
- the restructuring of a loan or advance by the Companies on terms that the Group would not consider otherwise;
- it is probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the asset.

### Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

- 3. Summary of significant accounting policies continued
- f) Finance income and finance costs

The Group's finance income and finance costs include:

- interest income on term deposits;
- bank administration and interest charges;
- Interest expense on lease liabilities.

Interest income or expense is recognised using the effective interest method. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

g) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand. For the purposes of the statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

h) Trade and other payables

Liabilities for trade payables and other amounts are carried at cost which is the fair value of the consideration to be paid in the future for goods and services received whether or not billed to the Group.

# i) Property, plant and equipment

Property, plant and equipment are stated at deemed cost less accumulated depreciation and any impairment in value. The principal depreciation rates in use are:

Buildings	2%
Plant and equipment	5% - 30%
Motor vehicles	15% - 25%

Profit and loss on disposal of property, plant and equipment are taken into account in determining profit or loss for the year.

- 3. Summary of significant accounting policies *continued*
- i) Property, plant and equipment *continued*

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets or cash-generating units are written down to their recoverable amount.

The recoverable amount of property, plant and equipment is greater of net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit to which the asset belongs. Impairment losses are recognised in the statement of profit or loss and other comprehensive income.

# j) Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- the contract involves the use of an identified asset this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- the Group has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- the Group has the right to direct the use of the asset. The Group has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Group has the right to direct the use of the asset if either:
  - the Group has the right to operate the asset; or
  - the Group designed the asset in a way that predetermines how and for what purpose it will be used.

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. However, for the leases of land and buildings in which it is a lessee, the Group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

### Group as lessee

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

- 3. Summary of significant accounting policies continued
- j) Leases continued

Group as lessee continued

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the group changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Short-term leases and leases of low-value assets

The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Assets held under other leases were classified as operating leases and were not recognised in the Group's consolidated statement of financial position. Payments made under operating leases were recognised in the consolidated statement of profit or loss and other comprehensive income on a straight-line basis over the term of the lease. Lease incentives received were recognised as an integral part of the total lease expense, over the term of the lease.

- 3. Summary of significant accounting policies continued
- k) Revenue

The Group recognises revenue from selling goods or services to customers at an amount that reflects the consideration to which it expects to be entitled in exchange for those goods or services. Revenue is recognised at an amount that reflects the consideration that the Group is expected to be entitled to in exchange for transferring goods or services to a customer, using a five-step model for each revenue stream as prescribed in IFRS 15. The five-step model is as follows:

- (I) Identification of the contract;
- (II) Identification of separate performance obligations for each good or service;
- (III) Determination of the transaction price;
- (iv) Allocation of the price to performance obligations; and
- (v) Recognition of revenue.

Rendering of services

Radio revenue is recognised when commercials are played or service is delivered. Proceeds from advance deposits are not recognised as revenue until the subsequent playing of commercials or delivery of service is performed.

### Dividends

Revenue is recognised when the shareholders' right to receive the payment is established.

### Rental income

Rental income is accounted for on a straight-line basis over the lease term for ongoing leases.

### I) Employee benefits

#### Annual leave

Provision is made for annual leave to be payable to employees on the basis of statutory requirement on employment contract.

### Long service leave

The liability for long-service leave is recognised in the provision for employee entitlements and measured as the present value of expected future payments to be made in respect to services provided by employees up to the reporting date. Consideration is given to future wage/salary rates, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date.

- 3. Summary of significant accounting policies continued
- m) Foreign currencies

The consolidated financial statements are presented in Fijian dollars, which is the holding company's functional and presentation currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Transactions in foreign currencies are initially recorded at the functional currency rate ruling at the date of transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rate of exchange ruling at balance date. All differences are taken to profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when fair value is determined.

The assets and liabilities of foreign operations are translated into Fijian dollars at the rate of exchange ruling at balance date and its income statement is translated at the weighted average exchange rate for the year. The exchange difference arising on translation are taken directly to a separate component of equity. On disposal of the foreign entity, the deferred cumulative amount recognised in equity relating to that particular foreign operation is recognised in the statement of profit or loss and other comprehensive income.

n) Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included in expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss. It is then considered in the determination of goodwill.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the re-assessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in profit or loss.

- 3. Summary of significant accounting policies *continued*
- n) Business combinations and goodwill *continued*

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

# o) Taxes

# Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at balance date.

Current income tax relating to items recognised directly in equity is recognised in equity and not in comprehensive income.

# Deferred tax

Deferred tax is provided using the liability method on temporary differences at balance date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- where the deferred tax liability arises from goodwill amortisation or the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiary, associates and interest in joint ventures, except where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

- 3. Summary of significant accounting policies continued
- o) Taxes continued

Deferred tax continued

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised except:

- where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that it is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each balance date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each balance date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance date. Deferred tax relating to items recognised directly in equity is recognised in equity and not in profit or loss.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes related to the same taxable entity and the same taxation authority.

#### Sales tax

Revenue, expenses and assets are recognised net of the amount of sales tax except:

- where the sales tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the sales tax is recognised as part of the acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables are stated with the amount of sales tax included.

The net amount of sales taxes recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

4. Risk management

The Group's activities expose it to a variety of financial risks: market risk (foreign exchange risk), credit risk and liquidity risk.

#### 4. Risk management continued

The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

Risk management is carried out by executive management. Executive management identifies, evaluates and monitors financial risks in close co-operation with the operating units. The Board of Directors provide policies for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk and credit risk.

### a) Financial risks

The main financial risks to the Group are the following:

# i. Foreign currency risk

The Group has investments in Papua New Guinea. The movement in the Kina/Fiji dollar exchange rates are recorded in equity and will be realised on disposal of the investment. The Group has transactional currency exposures. Such exposures arises from purchases by the Group in currencies other than Fijian dollars.

ii. Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults. The Group's exposure and the credit ratings of its counterparties are continuously monitored. Credit exposure is controlled by counterparty limits that are reviewed and approved by the management on a regular basis.

The Group does not have any significant credit risk exposure to any single counterparty or any Group of counterparties having similar characteristics. The carrying amount of financial assets recorded in the financial statements, net of any allowances for losses, represents the group's maximum exposure to credit risk.

Net impairment loss on financial assets amounting to \$46,779 (2021: \$369) was recognised in profit or loss for the year.

# Trade and other receivables

# Expected credit loss assessment for trade and other receivables as at 31 December 2022

The Group uses an allowance matrix to measure the ECLs of trade receivables from individual customers, which comprise a large number of small balances.

Loss rates are calculated using a 'roll rate' method based on the probability of a receivable progressing through successive stages of delinquency to write-off.

#### 4. Risk management continued

#### a) Financial risks continued

ii. Credit risk continued

Trade and other receivables continued

The following table provides information about the exposure to credit risk and ECLs for trade receivables from individual customers as at 31 December 2022:

	Weighted- average loss rate %	Gross carrying amount \$	Loss allowance \$
31 December 2022			
Current (not past due)	3.62%	1,138,444	41,189
30 days past due	5.68%	556,245	31,591
60 days past due	9.62%	338,750	32,589
More than 90 days past due	18.31%	276,324	50,581
		2,309,763	155,950
Debtors specifically assessed	_	131,463	131,463
		2,441,226	287,413

Loss rates are based on actual credit loss experience over the past years. These rates are multiplied by scalar factors to reflect differences between economic conditions during the period over which the historic data has been collected, current conditions and the Group's view of economic conditions over the expected lives of the receivables. Scalar factors are based on actual and forecast GDP.

#### 4. Risk management continued

#### a) Financial risks *continued*

ii. Credit risk continued

Trade and other receivables continued

Movements in the allowance for impairment loss in respect of trade receivables

The movement in the allowance for impairment loss in respect of trade receivables during the year was as follows:

	2022 \$	2021 \$
Balance at 1 January	272,615	345,818
Charge for the year	46,779	214,604
Debtors written off against allowance	(40,424)	(67,273)
Reversed during the year	-	(214,235)
Translation adjustment	8,443	(6,299)
Balance at 31 December	287,413	272,615

Cash at bank

The Group held cash and cash equivalents of \$2,188,537 at 31 December 2022 (2021: \$1,760,700). It also held term deposits of \$500,000 (2021: \$284,462) as at balance date. Cash are held with bank and financial institutions, which have sound credit ratings.

The Group considers that its cash have low credit risk based on the external credit ratings of the counterparties.

# iii. Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities to ensure availability of funding. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows.

- 4. Risk management continued
- a) Financial risks continued

# iii. Liquidity risk continued

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining period at the balance date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

			Contractual und	discounted cash flow	'S
	Carrying		Less than a		
	amount	Total	year	1 to 5 years	5+ years
	\$	\$	\$	\$	\$
At 31 December 2022

	4,070,844	5,646,581	1,728,995	1,709,238	2,208,348

# b) Other risks

# i. Operational risks

Operational risk is the risk of loss arising from systems failure, human error, and fraud. When controls fail to perform, operational risks can cause damage to reputation, have legal or regulatory implications, or lead to financial crisis. The Group cannot expect to eliminate all operational risk, but through a control framework and by monitoring and responding to potential risks, the Group is able to manage risks. Controls include effective segregation of duties, access, authorisation and reconciliation procedures, staff education and assessment procedures.

# ii. Regulatory risks

The Group's profitability can be impacted by regulatory agencies established which govern the business sector in Fiji and Papua New Guinea.

Also, the salaries and wages payable to workers are subject to the wages regulations and employment legislations. Licensing authorities in respective countries regulate the licensing aspects required for operations.

### 5. Critical accounting estimates and judgements

In application of the Group's accounting policies, which are described in Note 3, the Directors are required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of revision and future periods if the revision affects both current and future periods.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year and in future are discussed below.

Note 3(c) - Impairment of non-financial assets Note 3(e) – Impairment of financial instruments Note 3(i) - Depreciation of property, plant and equipment Note 3(l) - Provision for employee entitlements Note 3(o) - Deferred taxes

6. Segment information

The holding company and its subsidiary, PNG FM Limited operate predominantly in radio broadcasting services industry. FM Haus Pleas Limited owns a property in PNG. The holding company operate in Fiji while its subsidiaries operates in Papua New Guinea.

# Geographical segments

The following tables present revenue and profit information and certain asset and liability information regarding geographical segments for the years ended 31 December 2022 and 2021.

Year ended 31 December 2022	PNG	Fiji	Eliminations	Total

At 31 December 2021	1,137,000	168,001	1,305,001

i) Impairment testing of goodwill and intangibles with indefinite useful lives

Goodwill acquired through business combination with indefinite life has been allocated to the subsidiary acquired which is an individual Cash Generating Unit and also a reportable segment, for impairment testing as follows:

	2022 \$	2021 \$
Carrying amount of goodwill	1,137,000	1,137,000

Goodwill amounting to \$1,507,569 less subsequent impairment allowance of \$370,569 has been recorded by the Group in respect to acquisition of subsidiary, PNG FM Limited.

#### 16. Intangible assets continued

i) Impairment testing of goodwill and intangibles with indefinite useful lives continued

An external expert valuation was obtained to value the PNG FM Limited business. The Discounted Cash Flow (DCF) method and the Future Maintainable Earnings (FME) method indicated a recoverable amount of approximately FJD5.1m for the business as against the current Net Worth of PNG FM Limited of approximately FJD4.8M.

Based on the DCF methodology, this CGU was based on its value in use, determined by discounting the future cash flows to be generated from the continuing use of the CGU. The key assumptions used in the estimation of value in use were as follows:

FME methodology of valuation determined the future maintainable earnings of the business with earnings multiple of 6X, 7x and 8x.

Considering both the methods, the Group has concluded that there is no goodwill impairment as at balance date.
