

**For Public Release**

**12 JANUARY 2026**

**TEMPORARY HALT IN PACIFIC CEMENT LIMITED'S PRODUCTION**

Fijian Holdings Limited (FHL) wishes to advise that its subsidiary, Pacific Cement Limited (PCL), had temporarily ceased cement production in mid-December 2025 due to an issue with the cement mill motor.

The works to address the motor issue has been completed with full recommissioning works currently underway this week before we can recommence production. Based on the technical evaluation, the estimated timeframe for completion is approximately one week. Normal supply will resume by next week.

In the interim, 40kg General Blend (GB) and General Portland (GP) cement supplies will be temporarily unavailable until the mill resumes production.

PCL apologises for this unexpected disruption and assures all its valued customers and stakeholders that every effort is being made to recommence production.
