### Pacific Green Market Release: Financial Report for the Six Months Ending June 30, 2024

We are pleased to share our financial performance for the six months ending June 30, 2024. This period has been marked by significant challenges, both locally and globally, but also by our unwavering commitment to resilience, sustainable growth, and community impact.

#### **Revenue Performance**

For the first half of 2024, the company recorded total income of \$1,812,875. This reflects a modest decline from the \$2,189,861 earned in the same period last year. The decrease in revenue is attributed to key factors, including a contraction in our customer base due to mass migration, ongoing legal disputes concerning our online marketplace, and reduced discretionary spending in the Country, availability of cheaper and inferior imported substitutes.

#### Cost Management and Operational Efficiency

In response to these revenue challenges, our management has implemented several proactive cost management strategies. We have successfully secured competitive pricing for raw materials despite global supply chain disruptions, enhanced resource allocation to maximize operational efficiency, and negotiated more favorable freight terms to counter rising transportation costs. These measures underscore our commitment to maintaining financial sustainability in a volatile economic environment.

#### **Employee Welfare and Community Impact**

Despite the challenging economic landscape, we have remained steadfast in our commitment to employee welfare and community support. We have prioritized the well-being of our workforce, particularly in the face of rising living costs and labour shortages. Our ongoing efforts to empower women within our workforce, promote equal opportunities, and foster an inclusive work environment continue to be a cornerstone of our operations. Additionally, our contributions to local communities remain strong, providing steady employment and promoting sustainable livelihoods in neighboring areas.

#### Profitability and Financial Stability

The company achieved a net profit of \$145,548 for the period, a slight decrease from \$217,526 in the same period last year. Our net assets have grown to \$6.9 million from \$6.7 million as of December 2023, reflecting our ongoing financial stability. Total assets increased to \$8.4 million from \$7.8 million in 2023, underscoring our long-term commitment to financial growth.

## Save the Forest - Use Palmwood

#### Impact of Corporate Tax Rate Increase

It is important to note that our after-tax profits were impacted by the recent increase in the corporate tax rate from 10% to 25%. Despite this significant rise in tax obligations, we have continued to deliver stable financial results, demonstrating our capacity to navigate external pressures while maintaining our focus on sustainable growth.

#### Conclusion

As we move forward, we call on the government and all stakeholders to prioritize the purchase of local products. This decision will not only foster national pride but also leave a lasting impression on international visitors, showcasing the unique offerings that make Fiji stand out on the global stage.

By emphasizing the distinctiveness of our local products and talents, we can create a direct and positive impact on job creation, particularly in the Sigatoka rural area. Here, we are dedicated to training more women, who play a vital role in supporting their families.

Empowering these women through meaningful employment opportunities will strengthen the community and contribute to the broader economic development of the region.

For those seeking high-quality, niche products that are both environmentally friendly and locally made, Pacific Green stands as a world-class option. No other company offers what we do, and this is a point of immense pride for Fiji. Supporting Pacific Green is not just an investment in our economy; it is a statement of our commitment to sustainability and excellence.

Let us seize this opportunity to bolster our local industries, create jobs, and promote Fijian innovation on the world stage. Together, we can make Fiji a beacon of quality and sustainability, driving economic growth and instilling a deep sense of national pride.

Chairman

ompany Secretary
