The supermarket industry continues to see intensive competitiveness with new stores and players entering the industry each year. In addition to these factors the cost of doing business in Fiji continues to increase. Our operating costs increased by 7.0% over the last year with no real increase in productivity. Salary & wages has increased by 19% over the last two years and has contributed to inflation.

Mr Tikolevu acknowledged the continued positive impact of tourism growth driving the economic recovery for Fiji. However, he also cautioned of the many natural disasters, related to climate change, around the world as well as the continuing impact of wars in Ukraine and Iran that have and continue to cause disruptions to economic activities and has left most economies, including Fiji, still struggling to control inflation.
