Comments on individual categories when compared to the previous corresponding period are:

Net interest income increased by 9.0%, fueled largely by lending volume growth and a modest improvement in NIM, especially in PNG and Fiji. Additionally, increased investment securities volumes contributed to this growth, despite a decrease in investment margins.

Fees and commission income increased by 7.6% compared to the same period last year, due to an increase in new accounts and growth in electronic channel transactions, particularly from countries with significant tourist activity.

Foreign exchange earnings increased by 28.4% from the prior period, primarily driven by increased flows from resource and non-resource based sectors in PNG, along with heightened international trade and investments from other countries where the Group operates.

Other income decreased by 36.2%, primarily due to declining results from Joint Ventures compared to prior period and other non-banking activities, including reduced gains from asset disposals.

Net insurance operating income increased by 25%, driven by improved claims experience and increased investment income.

Comments on individual categories when compared to the previous corresponding period are:

Staff costs increased by 7.1%, largely driven by the inflationary impacts of annual performance based salary adjustments, promotions, and increase in staffing to support the Group Modernising for Growth strategy.

Depreciation expenses increased by 6.7% compared to corresponding period, mainly driven by full six months impact of the core banking project capitalised in April 2023.

Computing expenses increased by 3.6%, driven by increased system maintenance costs and professional consultancy services for the new core banking system.

Premises and equipment expense increased by 6.0%, driven by office space leasing cost and the continuing increase in fuel prices.

Administration and other costs increased by 211.9% mainly driven by the one-off release in legal provisions of K55.6m in the comparative period (June 2023). Excluding the legal provision release in June 2023, admin and other expenses increased by 20.9%, driven by the Modernising for Growth strategy to optimise operational processing and strengthen competitive positioning.

Operating expenses (Km)

* June 2023 comparative period had a one-off release in legal provisions of K55.6m.

2.2.3 Additional Company Tax refund

On 19 February 2024, BSP entered into a settlement with the Commissioner General of the Internal Revenue Commission in relation the judicial review of the PNG Government's imposition of Additional Company Tax. In accordance with the settlement agreement, of the K190 million previously paid and expensed by BSP into an escrow account, K95 million was returned to BSP in April 2024, which was realised to profit and loss after tax.

The balance of K95 million held in escrow was paid to the Internal Revenue Commission as full and final settlement of the litigation concerning the imposition of the Additional Company Tax.
