

Statement to the South Pacific Stock Exchange
COMMUNICATIONS FIJI LTD
Announces completion of Transmission Expansion,
28th August 2023

Communications Fiji Ltd announced today the completion of its current transmission expansion program. General Manager Charles Taylor said this included construction of two new sites and the upgrade of an existing site to boost coverage. This increases the total number of CFL transmission sites to 10.

The total cost of the project was just under FJD 1 million and included the installation of new sites at Dogowale in Serua, Benau near Labasa and an upgrade of CFL's Tuidreke site in Ra. "The Dogowale site boosts our signal in Serua and the Coral coast. It also means that drivers on the Queens Highway will have uninterrupted access to our stations," said Mr Taylor. "At Benau we are directing signals into Labasa Town and the Waiqeale area improving coverage in these important listening areas."

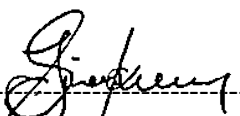

Transmission from the Tuidreke site in Ra has doubled in power, this will strengthen coverage of Southern Vanua Levu, Nabouwalu and also Northeast Viti Levu. "We are currently surveying the new coverage areas and are hopeful that we have filled previous transmission gaps. Our goal is to be able to deliver unmatched coverage of major population areas in Viti Levu, Vanua Levu and surrounding maritime regions," said Mr Taylor.

Communications Fiji Ltd self-funded the project "We are very proud of the fact that we are the only broadcast organisation in the country that owns and manages our own transmission facilities," said Taylor. "We believe this is critical in maintaining our independence and quality and reliability of our transmission network."

Site Name	Frequency				
	VITI FM	FM96	Legend FM	Navtarang	Sargam
Tabia - CFL site - LABASA	92.2	96.2	98.6	101	103.4
