

PORTDENARAUMARINA

OFFICIAL PRESS RELEASE

FOR PUBLIC RELEASE

Tuesday 23rd February 2021

--STARTS--

Let's celebrate the start of a new year by focusing on some positives from 2020! In these very difficult times when the tourism industry had come to a standstill with international borders being closed, Port Denarau Marina was elated to be announced finalist in the **Best Superyacht Marina Australasia** category of the **ACREW Superyacht Business Awards 2020**. This prestigious awards programme acknowledges the best superyacht businesses in the world, based on captain and crew experiences from last season.

ACREW's network of over 15,000 Captain and Crew Members are invited to vote for the superyacht businesses that deserve global recognition, for being the best in their field.

The **Best Superyacht Marina Award** recognises the marina for providing the best standard of services and facilities to Superyacht Captains & Crew. The marina is also praised for their willingness to assist Superyacht guests; ensuring a comfortable and enjoyable stay.

This award reinforces our position as a world class facility that is not only preferred by Captains and Crew but recognizes us as integral players in the international superyacht scene.

Riding on the momentum of this achievement Port Denarau Marina has recently been recredited under the **International Clean Marina Level 3 and Fish Friendly program** in January by the

Marina Industries Association (MIA). The Fish Friendly and Clean Marina accreditation demonstrates the Marina's ongoing commitment and setting the benchmark for marina environmental leadership to our wider community. The marina had to undergo a rigorous external audit process and despite the many challenges in the past year, the marina undertook improvements, be it structurally, aesthetically or through policy and procedural reviews to ensure environmental compliance and consistent use of best management practices.

The Clean Marina program is a great tool for the marina to use to ensure that we uphold a high environmental standard. The re-accreditation is a natural progression of our efforts to constantly improve our environment for our guests and the community.
